

COMMENCEMENT OF DETAIL DESIGN
Highway 69 Four-laning
Shawanaga River northerly to Highway 529
G.W.P. 5403-05-00

THE PROJECT

The Ministry Of Transportation has retained MMM Group to undertake the Detail Design for the four-laning of Highway 69 from 0.4 km north of Highway 7182 (Shebeshekong Road) northerly for approximately 11 km.

The preferred alignment for this section of Highway 69 was previously identified and documented in the Route Planning and Environmental Assessment Report (December 2006).

DETAIL DESIGN

Under the Class Environmental Assessment for Provincial Transportation Facilities (2000) this project is identified as a 'Group B' project. The work will include:

- Four-laning of Highway 69 on twinning and new alignment sections
- A new interchange south of Pointe au Baril Station
- A structure over Sucker Creek

PUBLIC INVOLVEMENT

This study is following an approved planning process with the opportunity for public input. Public Information Centres (PIC) will be scheduled to present details for public review and comment on the Detail Design. The MTO and Consultant staff will be available to answer questions and receive your input at that time.

A Design and Construction Report (DCR) will be prepared for each of the main contracts (currently 2 main contracts with 2 advance tree clearing contracts). The documents will be made available for a 30-day public review period with public notice advising of the start of the review period.

HOW TO GET MORE INFORMATION

We are interested in hearing your comments regarding the study. With the exception of personal information, all comments will become part of the public record in accordance with the Freedom of Information and Protection of Privacy Act R.S.O., 1990, c.F.31.

A project website link at www.highway69.ca will provide updated project information during Detail Design.
